DIAGNOSTIC MICROBIOLOGY
AND
INFECTIOUS DISEASE

Volume 14 (1991) Contents

NUMBER 1, JANUARY/FEBRUARY

Bacteriology

Effect of a Siliconized Latex Urinary Catheter on Bacterial Adherence and Human Neutrophil Activity 1
Guillermo López-López, Alvaro Pascual, Luis Martínez-Martínez, and Evelio J. Perea

Application of DNA Probes to Antimicrobial Susceptibility Testing of *Legionella pneumophila* 7
Mary Reznicek, Martha Bale, and Michael Pfaller

Identification of Toxigenic *Clostridium botulinum* Type E by Enzyme Immunoassay 11
Manoucher Dezfulian and John G. Barlett

Virology

Comparison of the Kallested Pathfinder EIA, Cytocentrifuged Direct Fluorescent Antibody, and Cell Culture for the Detection of *Chlamydia trachomatis* 17
William LeBar, Howard Schubiner, Claudia Jemal, Barry Herschman, Kay Criswell, Nancy Curtin, and Marcia Sherbeck

Notes

Comparative in vitro Antifungal Susceptibility Studies with 30 Serotype A and B Isolates of *Candida albicans* 21
Smith Shadomy and H. Jean Shadomy

Fleroxacin Combined with Rifampin 23
Yong-Xin Zhang and Harold C. Neu

Comparative in vitro Activity of Teicoplanin and Vancomycin Against United States Teicoplanin Clinical Trial Isolates of Gram-Positive Cocci 29
Michael T. Kenny, Jacqueline K. Dulworth, and Marcia A. Brackman

Letter to the Editor

Mycobacterial Cross-Contamination with the Modified BACTEC 460 TB System 33
Patrick R. Murray

Reply 34
Salman H. Siddiqi

Rebuttal 35
Patrick R. Murray

Advances in Oral Cephalosporins: Ceftibuten

Proceedings of Workshop 1 of the Seventh Mediterranean Congress of Chemotherapy, Barcelona, Spain, 20–25 May 1990

Antimicrobial Activity and Spectrum of Ceftibuten (7432-S, SCH 39720): A Review of United States and Canadian Results 37
Ronald N. Jones

Ceftibuten: A New Orally Absorbed Cephalosporin—in vitro Activity Against Strains from the United Kingdom 45
R. Wise, J.M. Andrews, J.P. Ashby, and D. Thornber

Comparative Antimicrobial Activity of Ceftibuten Against Multiply-Resistant Microorganisms from Belgium 53
Ludo Verbist, Jan Jacobs, and Koen Hens

Comparative Antimicrobial Spectrum and Activity of Ceftibuten Against Clinical Isolates from West Germany 63
A. Bauernfeind

In vitro Activity of Ceftibuten Against *Haemophilus influenzae* and *Branhamella catarhallis* 75
Gary V. Doern

Antimicrobial Effects of the Combination of Ceftibuten and an Orally Absorbed Penem SCH 29482 79
Nai-Xun Chin, Jian-Wei Gu, and Harold C. Neu

Ability of Ceftibuten to Induce the Class-I β-Lactamases of *Enterobacter cloacae*, *Serratia marcescens*, and *Enterobacter aerogenes* 85
Genovefa A. Papanicolaou and Antone A. Medeiros

Ceftibuten and Bactericidal Kinetics: Comparative in vitro Activity Against Enterobacteriaceae Producing Extended Spectrum β-Lactamases 89
A. Bauernfeind

The Pharmacokinetics of Ceftibuten in Humans 93
William H. Barr, Chin-Chung Lin, Elaine Radwanski, Josephine Lim, Samson Symchowicz, and Melton Affrime

Randomized Comparative Study of Ceftibuten versus Cefaclor in the Treatment of Acute Lower Respiratory Tract Infections 101
Robert B. Kammer and Rudyard Ress

NUMBER 2, MARCH/APRIL

Bacteriology

The Detection of Positive Blood Cultures by the BACTEC NR660: The Clinical Importance of Four-Day versus Seven-Day Testing 107
Martin R. Evans, Allan L. Truant, Jay Kostman, and Laron Locke

Multicenter Comparison of the High Volume (10 ml) NR BACTEC PLUS System and the Standard (5 ml) NR BACTEC System 111
Franklin P. Koontz, Kristine K. Flint, Janet K. Reynolds, and Stephen D. Allen

Mycology

The Outcome of Candiduria in Pediatric Patients 119
Colleen S.Y. Chun and Ronald B. Turner

Virology

Optimizing Recovery of Cytomegalovirus in the Shell Vial Culture Procedure 125
Max Arens, Jody Owen, Colleen M. Hagerty, Charles A. Reed, and Gregory A. Storch

A Comparison of Direct Immunofluorescence, Shell Vial Culture, and Conventional Cell Culture for the Rapid Detection of Influenza A and B 131
Sheryl L.G. Johnston and Charles S. Siegel

Antimicrobial Susceptibility Studies

In vitro Activity of an Oxycephem OCP 9-176 Compared with Its Sulfur Analog and Other β-Lactams 135
Jian-wei Gu, Nai-Xun Chin, and Harold C. Neu

The Bactericidal Activity of Ampicillin, Daptomycin, and Vancomycin Against Ampicillin-Resistant *Enterococcus faecium* 141
Abdelhady El-Mady and Joel E. Mortensen

Antimicrobial Clinical Studies

Antibacterial Activity of Cefoperazone and Cefoperazone Plus Sulbactam in a Neutropenic Site Model 147
Claudine E. Fasching, Julia A. Moody, Leann M. Sinn, Jane Tenquist, Dale N. Gerding, and Lance R. Peterson

Effect of Including Recommendations for Antimicrobial Therapy in Microbiology Laboratory Reports 157
Raymond C. Bartlett, Richard D. Quintiliani, Charles H. Nightingale, David Platt, Helen Crowe, Richard Grotz, Rocco Orlando, Carol Strycharz, Janice Tetreault, and Trudy Lerer

Case Report

Infection of an Arteriovenous Fistula with *Rothia dentocariosa* 167
Rafael A. Nivar-Aristy, Leonard P. Krajewski, and John A. Washington

Notes

Altering TestPack Chlamydia Sampling Swab Decreases Testing Time 171
Paul Coleman

In vitro Susceptibilities of *Edwardsiella tarda* to 22 Antibiotics and Antibiotic–β-Lactamase-Inhibitor Agents 173
Richard B. Clark, Philip D. Lister, and J. Michael Janda

Comparison of Blood-Culture Results After Five and Seven Days of Incubation Using the BACTEC NR660 **177**
Susan E. Sharp, Jay M. Goodman, and Robert J. Poppiti, Jr.

In vitro Activity of LY264826 Compared to Other Glycopeptides and Daptomycin **181**
Nai-Xun Chin and Harold C. Neu

Application of quadFERM+ for the Identification of Fastidious Gram-Positive and Gram-Negative Bacilli **185**
Pauline K.W. Yu, Mary A. Rolfzen, Ruth A. Johnson, Marlene K. Hopkins, and John P. Anhalt

Errata **189**

NUMBER 3, MAY/JUNE

Bacteriology

Latex Agglutination Detection of Group-B Streptococcal Inoculum in Urine **191**
Terrance J. Zuerlein, Barbara Christensen, and Robert T. Hall

Differentiation of Enterobacteriaceae, *Pseudomonas aeruginosa*, and *Bacteroides* and *Haemophilus* Species in Gram-Stained Direct Smears **195**
Raymond C. Bartlett, Mary F. Mazens-Sullivan, and Trudy J. Lerer

An Agar Gel Enzyme Assay (AGEA) for Simple Detection of *Salmonella enteritidis* Antibodies in Chicken Sera **203**
Chul Joong Kim and Kakambi V. Nagaraja

The Clinical Microbiology Laboratory as an Aid in Infection Control: The Application of Molecular Techniques in Epidemiologic Studies of Methicillin-Resistant *Staphylococcus aureus* **209**
Michael A. Pfaller, Douglas S. Wakefield, Richard Hollis, Mary Fredrickson, E. Evans, and R. Michael Massanari

Mycology

Use of Lactophenol Cotton Blue Mounts of Corneal Scrapings as an Aid to the Diagnosis of Mycotic Keratitis **219**
Philip A. Thomas, Thomas Kuriakose, Mothi P. Kirupashanker, and V. Senthil Maharajan

Virology

Laboratory Diagnosed Human Viral Infections in Canada, 1980–1988: Trends and Clinico-Epidemiological Characteristics **225**
John M. Weber and Catherine A. Parker

Correlation of the Percent of Positive *Chlamydia trachomatis* Direct Fluorescent Antibody Detection Tests with the Adequacy of Specimen Collection **233**
Cynthia Howard, Debbie L. Friedman, Jean K. Leete, and Mary L. Christensen

Antimicrobial Susceptibility Studies

Antibiotic Susceptibility Profile of *Xanthomonas maltophilia:* In vitro Activity of β-Lactam/β-Lactamase Inhibitor Combinations **239**

J.A. García-Rodríguez, J.E. García Sánchez, M.I. García García, E. García Sánchez, and J.L. Muñoz Bellido

In vitro Antibacterial Activities of the Fluoroquinolones PD 117596, PD 124816, and PD 127391 **245**

Michael A. Cohen, Michael D. Huband, Gail B. Mailloux, Steven L. Yoder, Gregory E. Roland, and Carl L. Heifetz

In vitro Antibacterial Activity of Trospectomycin (U-63, 366F) Against Anaerobic Bacteria and Aerobic Gram-Positive Cocci in Chile **259**

F. Montiel, G. Kaltwasser, M.E. Pinto, and M. Lam

Antimicrobial Clinical Studies

Comparison of Agar versus Broth Dilution Techniques for Determining Antibiotic Susceptibilities of *Ureaplasma urealyticum* **265**

Ken B. Waites, Tulio A. Figarola, Terri Schmid, Donna M. Crabb, Lynn B. Duffy, and Jerry W. Simecka

Book Review

Foodborne Listerosis (Miller et al.) **273**

Albert Balows

NUMBER 4, JULY/AUGUST

Bacteriology

Reproducibility of *Staphylococcus epidermidis* Plasmid Profiles **275**

Alan I. Hartstein, Virginia H. Morthland, and Abdel L. Rashad

Evaluation of the Modified Visuwell Strep-A Enzyme Immunoassay for Detection of Group-A *Streptococcus* from Throat Swabs **281**

Murray Drulak, William Bartholomew, Leonard LaScolea, Daniel Amsterdam, Nils Gunnersen, Juanita Yong, Colette Fijalkowski, and Scott Winston

Virology

The Rapid Diagnosis of Infectious Mononucleosis Using an ELISA That Detects IgM Antibody to a Peptide Component of Epstein–Barr Virus Nuclear Antigen **287**

Myron J. Levin, Melvin P. Weinstein, Ciro V. Sumaya, Manfred Gooch, Michael Osband, Gary Rhodes, Alexander M. Ackley, Catherine G. Wren, and John K. Podgore

Diagnosis of Cytomegalovirus Hepatitis by Histopathology and in situ Hybridization in Liver Transplantation **293**

Mark J. Espy, Carlos V. Paya, Keith E. Holley, Jurgen Ludwig, Paul F. Hermans, Russell H. Wiesner, Ruud A.F. Krom, and Thomas F. Smith

Antimicrobial Susceptibility Studies

Cefpirome, Alone and in Combination with Gentamicin for Enterococcal Pyelonephritis in the Rodent Model **297**
Francisco L. Sapico, Virginia Ginunas, John Z. Montgomerie, and Hanna N. Canawati

Antimicrobial Activity of E-1040, a Novel Thiadiazolyl Cephalosporin Compared with Other Parenteral Cephems **301**
Ronald N. Jones, Meridith E. Erwin, Mary S. Barrett, David M. Johnson, and Beth M. Briggs

Susceptibility Testing of *Listeria monocytogenes:* A Reassessment of Bactericidal Activity as a Predictor for Clinical Outcome **311**
Maria D. Appleman, Charles E. Cherubin, Peter N.R. Heseltine, and Charles W. Stratton

In vitro Antimicrobial Activity of Sparfloxacin (AT-4140, CI-978, PD 131501) Compared with Numerous Other Quinolone Compounds **319**
Ronald N. Jones, Mary S. Barrett, Meridith E. Erwin, Beth M. Briggs, and David M. Johnson

Antibacterial Activity of Rokitamycin Compared with That of Other Macrolides **331**
Kwok-Woon Yu, Francisco Briones, Nai-Xun Chin, and Harold C. Neu

In vitro Activity of 43 Antimicrobial Agents Tested Against Ampicillin-Resistant Enterococci and Gram-Positive Species Resistant to Vancomycin **337**
Nobuhisa Yamane and Ronald N. Jones

Case Report

Infections with *Rhodococcus equi* in Children **347**
Karin L. McGowan and Mark F. Mangano

Notes

Simultaneous Infection with Multiple Serotypes of Shigellae in a Patient **353**
M. John Albert, Abdus Salam, Firdausi Qadri, Abdul K.M.G. Kibriya, and Saul Tzipori

In vitro Activity of Sparfloxacin (AT-4140 and CI-978), a New Quinolone Antimicrobial Agent, Against *Haemophilus* and Gram-Positive Cocci **355**
James T. Rudrik, Susanne R. Ferrigno, and Sharon L. Gee

Antimicrobial Activity of Cefpirome: An Update Compared to Five Third-Generation Cephalosporins Against Nearly 6000 Recent Clinical Isolates from Five Medical Centers **361**
Ronald N. Jones, Michael A. Pfaller, Stephen D. Allen, E. Hugh Gerlach, Peter C. Fuchs, and Kenneth E. Aldridge

Book Review

Campylobacter pylori in Gastritis and Peptic Ulcer Disease (Martin J. Blaser, ed.) **365**
Reviewed by Albert Balows

NUMBER 5, SEPTEMBER/OCTOBER

Bacteriology

Comparison of TestPack Plus Strep A with Selective and Nonselective Culture Media for Detection of Group-A Streptococci **367**

Lynn D. Schwabe, April F. Gobbo, Richard L. Gottschall, and Eileen L. Randall

Virology

Comparison of Human Rhabdomyosarcoma, HEp-2, and Human Foreskin Fibroblast Cells for the Isolation of Herpes Simplex Virus from Clinical Specimens **373**

Sheryl L.G. Johnston

Antimicrobial Susceptibility Studies

Comparison of Bactericidal Activity of Clindamycin and Metronidazole Against Cefoxitin-Susceptible and Cefoxitin-Resistant Isolates of the *Bacteroides fragilis* Group **377**

Charles W. Stratton, Lyndell S. Weeks, and Kenneth E. Aldridge

Development of *Neisseria gonorrhoeae* in vitro Susceptibility Test Methods for Cefixime Including Quality Control Guidelines **383**

Ronald N. Jones, E. Hugh Gerlach, Frank P. Koontz, Patrick R. Murray, Michael A. Pfaller, John A. Washington, Meridith E. Erwin, and Cynthia C. Knapp

Antimicrobial Activity Evaluations of Two New Quinolones, PD127391 (CI-960 and AM-1091) and PD131628 **389**

Mary S. Barrett, Ronald N. Jones, Meridith E. Erwin, David M. Johnson, and Beth M. Briggs

In vitro Activity of Sparfloxacin (CI-978, AT4140, and PD 131501): A Quinolone with High Activity Against Gram-Positive Bacteria **403**

Michael A. Cohen, Michael D. Huband, Gail B. Mailloux, Steven L. Yoder, Gregory E. Roland, and Carl L. Heifetz

In vitro Activity of a New Cephalosporin ME-1206 Compared with Other Agents **417**

Nai-Xun Chin, Yong-Xin Zhang, and Harold C. Neu

In vitro Activity Evaluations of Cefdinir (FK482, CI-983, and PD134393): A Novel Orally Administered Cephalosporin **425**

Beth M. Briggs, Ronald N. Jones, Meridith E. Erwin, Mary S. Barrett, and David M. Johnson

Antimicrobial Clinical Studies

Oral Ofloxacin Therapy of Infections Due to Multiply-Resistant Bacteria **435**

Brian E. Scully, Neville Clynes, and Harold C. Neu

Case Report

Isolation of *Mycoplasma pneumoniae* from Pleural Fluid **443**

Vivian G. Loo, Susan Richardson, and Patricia Quinn

Notes

In vitro Susceptibility of 33 Clinical Case Isolates of *Xanthomonas maltophilia:* Inconsistent Correlation of Agar Dilution and of Disk Diffusion Test Results **447**
Peter Hohl, Reno Frei, and Pia Aubry

Correlative Interpretation of Staphylococcal Resistance to Penicillinase-Resistant Penicillins by Ceftizoxime Disk Susceptibility Test Using Showa Disks **451**
Nobuhisa Yamane and Masakazu Tosaka

Letters to the Editor **457**

NUMBER 6, NOVEMBER/DECEMBER

Mycology

Use of rDNA Restriction Fragment Length Polymorphisms to Differentiate Strains of *Candida albicans* in Women with Vulvovaginal Candidiasis **459**
Gary E. Stein, Valerie L. Sheridan, Beatrice B. Magee, and Paul T. Magee

Mycobacteria

Oxazolidinones, a New Class of Synthetic Antituberculosis Agent: In vitro and in vivo Activities of DuP-721 Against *Mycobacterium tuberculosis* **465**
Dilip R. Ashtekar, Rabi Costa-Periera, T. Shrinivasan, Ramnath Iyyer, N. Vishvanathan, and Werner Rittel

Antimicrobial Susceptibility Studies

In vitro Activity of RU29246: The Metabolite of a New HR916 Cephalosporin Ester **473**
Ronald N. Jones, Meridith E. Erwin, Mary S. Barrett, Beth M. Briggs, and David M. Johnson

Quality Control Limits for Disk Diffusion and Broth Microdilution Susceptibility Tests with *Haemophilus* Test Medium **485**
Gary V. Doern, E. Hugh Gerlach, James H. Jorgensen, Patrick R. Murray, Clyde Thornsberry, and John A. Washington, Jr.

Time-Kill Kinetic Studies of Ampicillin/Sulbactam for β-Lactamase-Producing Enterococci **495**
Jan Evans Patterson, Patricia Farrel, and Marcus J. Zervos

Comparison of the E Test (PDM Epsilometer) and Broth Microdilution Susceptibility Tests for Members of the *Bacteroides fragilis* Group **501**
Patrick R. Murray and Ann C. Niles

Case Reports

Campylobacter jejuni Infected Bursitis **507**
Berend C. Schieven, David Baird, Charles L. Leatherdale, and Zaffar Hussain

A Fatal Case Associated with Shigellosis and *Vibrio fluvialis* Bacteremia 509
M. John Albert, M. Anowat Hossain, K. Alam, I. Kabir, Prodyot K.B. Neogi, and Saul Tzipori

Isolation of Agent Associated with Cat Scratch Disease Bacillus from Pretibial Biopsy 511
Gerri S. Hall, Kathy Pratt-Rippin, and John A. Washington

Notes

An Immunoblotting Study of Serologic Response in Patients with Acute Brucellosis 515
José Leiva León, Manuel de la Rosa, Jacinto Plata, María J. Martínez, and Juan Jiménez-Alonso

Antimicrobial Activity of Three Investigational Oral Cephalosporins (BK-218, Cefdinir, and RU29246) Against *Legionella* 519
Ronald N. Jones, Meridith E. Erwin, and Mary S. Barrett

Specimen Cross-Contamination by a Strain of *Mycobacterium tuberculosis* Lacking Nitrate Reductase Activity 523
William B. Smith and Dale W. Vance, Jr.
